Notice of Allowability

The following is an examiner's reasons for allowance:

Applicant's generic claim, as amended is directed toward an enterically-coated polymer capable of removing fluid from the gastrointestinal tract of a host animal, up to twenty times its weight in physiological saline.

The closest prior art of record is distinguished from the instant invention in that the prior art is: (a) not directed toward non-enterically coated acrylic acid polymer and (b) most significantly does not suggest removal from a mammal but rather removal of fluid from intestine of insects.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance".
